13. Precautions of use:

- (1) Since the battery is not manufactured for recharging there are risks of eletrolyte leakage or causing damage to the device if the battery is charged.
- (2) The battery shall be installed with its "+"and "-" polarity in correct position, other wise may cause short-circuit.
- (3) Short-circuit, heating, disposing of into fire and disassembling the battery are prohibited.
- (4) Battery cannot be forced discharged, which lead to excess gassing and may resul in bulging leakage and de-crimping of cap.
- (5) New and used batteries cannot be used at the same time, when replaced batteries recommend to replace all and with the same brand type.
- (6) Exhausted batteries should be removed from compartment to prevent over-discharge, which cause leakgae damage to the device.
- (7) Direct soldering is not allowed, which will damage the battery.
- (8) Battery shoul be kept out of the reach of children to prevent swallow, in case of accident should contact physician at once.
